

Free journals with 0 APC charges

1. Quantum (quantum-journal.org)

- **Rank: Q1** (Very High Prestige)
- **Cost: Free (0 APC)** via Waiver.
- **How it works:** This is the most popular community-run journal for quantum computing. Officially, they have a ~€600 fee, but they have a **"No-Questions-Asked" Waiver**.
- **Instruction:** During submission, you simply tick a box that says "I cannot pay the fee." They do not ask for proof; they grant it automatically to ensure anyone can publish.
- **Focus:** All aspects of quantum science (algorithms, hardware, information theory).

2. SciPost Physics (<https://scipost.org/SciPostPhys>)

- **Rank: Q1**
- **Cost: Free (0 APC).**
- **Model:** Strictly Diamond Open Access. Funded by a consortium of universities.
- **Focus:** High-quality physics research, including quantum information, many-body quantum physics, and experimental quantum tech.
- **Note:** They also have a sister journal, **SciPost Physics Core** (Q2), for papers that are scientifically rigorous but perhaps less "groundbreaking" than the main journal.

3. Journal of Machine Learning Research (JMLR) (<https://www.jmlr.org/>)

- **Rank: Q1** (Top tier for AI/ML)
- **Cost: Free (0 APC).**
- **Focus:** Only relevant if your work is in **Quantum Machine Learning (QML)**.
- **Why submit:** It is arguably the most prestigious AI journal in the world, and it is fully free. They accept high-quality theoretical QML papers.

4. Logical Methods in Computer Science (LMCS) (<https://lmcs.episciences.org/>)

- **Rank: Q2**
- **Cost: Free (0 APC).**
- **Focus:** Theoretical computer science. This is an excellent venue for **Quantum Logic**, **Quantum Programming Languages**, and **Quantum Semantics**.
- **Model:** Run by the community (Episciences platform).

5. Theory of Computing (<https://theoryofcomputing.org/index.html>)

- **Rank: Q2/Q3**
- **Cost: Free (0 APC).**
- **Focus:** Strictly theoretical topics. Perfect for **Quantum Algorithms**, Complexity Theory, and Cryptography.
- **Model:** One of the oldest Diamond OA journals in computer science.
